www.tdlr.texas.gov/complaints

5. Is there a dog in the backyard? Yes ___ No ___
 - a. If YES; is the dog friendly or unfriendly: Friendly ___ Unfriendly ___

6. How would you like your chemicals supplied for the pool?
 - a. ___ Hamlin Pools to supply customer in bulk (***recommended and most economical***)
 - b. ___ Hamlin Pools supply off truck
 - c. ___ Customer to supply chemicals
***chemicals must be present at time of service or truck supply will be used until chemicals are supplied by the customer

7. Where would you like your chemicals stored?
 - a. ___ In a plastic bin or trash can (***recommended***)
 - i. Would you like Hamlin Pools to supply plastic bins? Yes ___ No ___
 - b. ___ Other (Garages are not allowed): _____

8. What kind of chlorination system does your pool have?
 - a. ___ Chlorine tablets
 - b. ___ Chlorine generator (AKA 'salt pool')
 - c. ___ Other: _____

9. As per manufacturer's recommendation; all filters should be disassembled and cleaned at least once a year.
Do you know the last time your filter was cleaned?
 - a. Date of last filter cleaning: _____
 - b. No, please schedule a filter cleaning on my first visit _____

10. Would you like additional protection against algae and/or staining?
 - a. ___ Borates (***recommended: \$250 approximated initial dose***) – this is a mineral that is added to the water that will reduce the amount of chlorine that is needed, help maintain your pools pH, fight algae, fight staining, act as a water softener, and makes the water clearer. If this option is selected you do NOT need options B or C
 - b. ___ Algaecide – this is a product that is added on a weekly basis to help fight algae
 - c. ___ Sequestering Agent – this is a product that is added on a weekly basis to help fight staining.

*** Normal maintenance items: there are a few standard maintenance items that will be replaced and billed in addition to the regular service when needed in order to keep pool operational. Some examples are: time clock safety shield, PSI gauges, o-rings, chlorinator parts, skimmer parts, plastic lids, etc. Approval will be requested on larger repairs requiring work orders.

- d. Other _____

*** Card will be charged again once deposit has been depleted

Hamlin Pools service maintenance program is designed to supplement the homeowner's daily maintenance routine. Swimming pools should be checked daily and our service alone does not provide the total maintenance without the homeowner's participation. Hamlin Pools service offers the basic test functions of five basic chemical tests (chlorine, pH, total alkalinity, CYA, and calcium hardness). Our visits do not replace the need to follow proper pool care as detailed by the manufacturer for their product and general pool care guidelines, Please check your pool daily or more frequently as needed for proper care of your swimming pool.
